INDEPENDENCE OF THE ISTHMUS OF PANAMA IS PROCLAIMED AT COLON.

AMERICAN MARINES LANDED

NEW REPUBLIC PROMPTLY APPEALS TO WASHINGTON FOR RECOGNITION

Colon, Colombia, Nov. 5.—Without the firing of a shot and amid scenes of great enthusiasm, the independence of the isthmus and the department of Panama was declared Tuesday evening.

The city of Panama is now in the hands of the revolutionists and no serious attempt has been made to recapture it. The Colombian gunboat Bogota arrived in the harbor after the declaration of independence and threw a few shells into the city without doing damage to life or property. Perfect order prevails in Colon and transisthmian trains are running as usual without interruption. In Panama the flag of the new republic, in colors of red, white and blue, floats over the government buildings.

The movement for independence has been in progress since the rejection by the congress at Bogota of the Hay-Herran canal treaty, but its sudden ripening Tuesday night was due to the news of the unexpected arrival at Colon of the Colombian gunboat Cartagena with Generals Tovar and Amaya and a number of troops. The movement has been promoted by prominent and wealthy isthmians and Governor Obaldia of the department of Panama, who arrived at Panama at 5:30 p. m. Tuesday, on computing the troops and citizens in favor of independence, found that they numbered at least 1,500. The advocates of independence both at Panama and at Colon are now jubilant.

Nashville Prevented Trouble. The presence of the United States gunboat Nashville at Colon is believed to have resulted in the avoidance of serious trouble. As the result of a conference here Colonel Torres, commanding the troops at Colon, has sent on a special train to Panama a representative to confer with General Tovar, whose unconditional release is demanded.

In reliable quarters it is believed that peaceful results will follow a proposal just made to Colonel Torres that the American troops will return to the Nashville if he guarantees to maintain order. This proposal was accepted by Colonel Torres.

At 7:30 o'clock last night the American bluejackets returned aboard the Nashville.

During the excitement in the afternoon the blue jackets from the Nashville quickly placed bales of cotton on the tops of freight cars, forming excellent barricades. Many of the citizens were armed with rifles and revolvers. Several Americans and other foreigners took refuge on board the German steamer Markomannia.

The opinion of everybody here is that the isthmian canal is now assured.

The prefect of Colon has been informed by Commander Hubbard of the Nashville that the transportation

of troops on the transisthmian railroad will not be permitted and that traffic on that road must not be interrupted.

### REQUEST FOR RECOGNITION.

State Department Declines to Commit Itself.

Washington, Nov. 5.—The state department Wednesday received a prompt request from the representatives of the revolutionary government at Panama that the United States recognize the new state of Panama, but pending official advice from our consular officers at Panama that a new government had been established and is a de facto government, the state department declined to commit itself.

However, attention was called to the fact that it is the invariable policy of the United States to deal with the de facto government in any country. This statement is taken as favorable to recognition should the new Panama government have an active existence.

Early in the morning news was received of the shelling of Panama by the Colombian gunboat Bogota and instructions were cabled at once to our vice consul there to protest against this bombardment, while the commander of the cruiser Boston was directed to prevent the Bogota resuming firing. It early became apparent that this government intended to take active steps to

### Protect Life and Property.

on the isthmus and to take an advanced position. Instructions were cabled commanders of warships on their way to the isthmus or already there, to resort to any necessary measures to prevent bloodshed. The situation at the two ends of the railway, Panama and Colon, is anomalous and late last night it developed that the Colon situation is the result of plans of the navy department miscarrying.

The dispatches to the Nashville, which should have reached her immediately upon her arrival at Colon, Nov. 2, were intercepted and were not received by Commander Hubbard until after the Colombian gunboat had arrived at Colon with 500 Colombian troops aboard, when it was too late to prevent her entrance to the harbor. The execution of the original scheme would have eliminated the Cartagena from the situation at Colon and the present unfortunate complications would have been avoided.

It is expected further efforts will be made on the part of the new government of Panama to obtain recognition at the hands of the United States.

### TWO VICTIMS DEAD.

Unknown Young Man Attempts Triple Murder in Oklahoma.

Stroud, Okla., Nov. 5.—A man rode up to the Ames' house, nine miles south of Stroud, and shot and killed Mrs. Ames, Jackson, the hired man, and wounded Miss Ames, nineteen years old, a daughter, by shooting her in the shoulder. The murderer first forced Miss Ames and Jackson into the cellar at the point of a pistol. They heard a shot and ran to the head of the stairs and found that Mrs. Ames had been killed. Jackson was next killed. The young woman fell with a bullet in her shoulder, but when the murderer went to the cellar and shot Jackson again, she regained consciousness and ran to the neighbors. She says the murderer was a young man. There is no known motive. Several officers are in pursuit of him.

TO HIS FELLOW TOWNSMEN.

Joseph Chamberlain Makes a Speech at Birmingham.

London, Nov. 5.—Joseph Chamberlain made a speech at night to 9,000 of his fellow townsmen at Bingley Hall, Birmingham. It was by far the largest audience the former colonial secretary had faced during the fiscal campaign, and the enthusiasm naturally exceeded the remarkable scenes witnessed in the other cities and was emphasized by the Chamberlainite victory at Tuesday's municipal election at Birmingham. Mr. Chamberlain was given a great reception.

Mr. Chamberlain spoke for nearly two hours, in the main repeating his former arguments and appealing to the patriotism and self interest of the people of the United Kingdom to sustain his fiscal project.

### FELT IN BUSINESS BLOCKS.

Series of Earthquake Shocks Occur at St. Louis.

St. Louis, Nov. 5.—This city and vicinity experienced a decided earthquake shock or series of shocks at 12:18 p. m. There is a difference of opinion as to how many. The earthquake was perceptible all over the city and was mostly felt in the high business blocks in the downtown section of the city. One occupant of a high building said his chandelier swung three inches. The movement was from east to west.

A long distance telephone message from Louisiana, Mo., says a perceptible shock was felt there about the same time.

Slight shocks were also felt at Nashville, and Memphis, Tenn., Owensville, Ky., and two distinct shocks were felt at Cairo, Ill.

Colonel Bouck Critically Ill. Oshkosh, Wis., Nov. 5.—Colonel "Gabe" Bouck, dean of the Winnebago county bar, the most prominent Democrat in this part of the state, a veteran of the Civil war and a reputed millionaire, is critically ill. Colonel Bouck is seventy-six years old. A slight cold, aggravated by weakness, has brought him to his bed, and it is feared that he may not rise again.

## ARSENAL BLOWN UP

SIX MEN ARE KILLED AND OTHERS INJURED ON IONA ISLAND, N. Y.

BODIES HORRIBLY MANGLED

FORCE OF THE EXPLOSION FELT FOR MILES ALONG THE HUDSON RIVER.

Iona Island, N. Y., Nov. 5.—Six men were killed and ten slightly injured by an explosion at the United States naval arsenal, one of the largest magazines in the United States, which is located here.

The explosion occurred while men were drawing the explosive charges from a consignment of old shells recently sent here from the battleship Massachusetts.

Three massive shell houses were totally destroyed and a rain of fragments of projectiles of all sizes was scattered in every direction.

The force of the explosion, or series of explosions, broke windows at Peekskill, three miles below on the opposite side of the Hudson, and the detonation was heard for many miles. Adjacent buildings, including two storehouses for fixed ammunition, were riddled with the fragments and the quarters of the eleven marines composing the garrison were completely demolished.

### Dead Were All Workmen.

The dead, all of whom were workmen employed by the naval ordnance department, are Fred Ward, George Morehead, Fred O. Locke, Patrick Curran, Fred Brown and James Connelly.

The bodies were frightfully mangled, fragments being hurled for hundreds of feet.

Fire followed the explosion and for several hours the marines fought the flames in imminent danger from constantly exploding shells.

The island, which has been used as an arsenal for a year, is in the Hudson river, forty miles from New York, and shells and ammunition of all kinds were stored there. The detonation of part of the charge of a shell being unloaded in the shell house exploded and all the others and the fragments of shells driven into the adjoining houses exploded their contents.

There were two main explosions, with an interval of several seconds between and a succession of minor ones as individual shells went off.

### Court of Inquiry to Be Appointed.

Washington, Nov. 5.—A brief dispatch regarding the disaster on Iona Island, by which a number of men lost their lives was received by Acting Secretary Darling. It was transmitted by Captain Perry and gave no details, saying that seven or eight men were killed. A board of investigation or court of inquiry will be appointed to determine the cause of the accident.

### CABLE CARS IN COLLISION.

One Person Killed and Fifty-ones Others Injured.

Kansas City, Mo., Nov. 5.—One person was killed and fifty-one others injured, two of them perhaps fatally, in the collision of two cable cars in a fog on the steep Twelfth street viaduct. Most of the injured were shop-girls on their way from home in Kansas City, Kan., to the department stores on the Missouri side. The dead girl, Nellie Luscombe, aged twenty, was killed instantly. She was found buried beneath the debris of the wrecked trains. A small piece of steel, the size of a lead pencil, had been driven into the girl's skull between the eyes, and the left side of her head was crushed. She was so badly disfigured that it was several hours before she was identified. Of the injured, Carrie Mooney, also a dry-goods clerk, who suffered both legs broken, and Herman Watkins, a clerk, whose jaw was broken and who was otherwise hurt, will die, it is believed.

Seventeen others were more or less seriously hurt, five of them sustaining broken bones. The other thirty-four injured sustained only minor cuts and bruises.

All the injured lived in Kansas City, Kan., or its suburbs.

### Vengeance of Ladrone.

Manila, Nov. 5.—A party of ladrone captured the teniente (municipal officer) of Buena Vista, near Malabon, Cavite, Tuesday. They cut the tendons of his legs and left him on the roadway. This outrage was an act of vengeance because the teniente had given information to the authorities regarding the movements of the ladrone.

### Cholera in the Philippines.

Manila, Nov. 5.—Twenty-two cases of Asiatic cholera occurred in Vigan, the capital of Ilocos Sur, Luzon, last week. Twenty-one deaths are reported.

### Three Laborers Killed.

Steubenville, O., Nov. 4.—A Pennsylvania passenger train, in a fog, ran down a party of nine Austrian laborers who were walking along the track and three were killed, the others escaping unhurt.

Jos. Craig left for his home at Princeton this afternoon.

August Beck has opened a feed barn on Ninth street south.

W. B. Jones, of Sylvan Lake, was in the city today on business.

Dr. A. J. Jameson, of Wheatland, N. D., is in the city today on business.

Mrs. William Donahue left this afternoon on belated No. 6 for Dassel, Minn.

Major Scott, of the Leech Lake Indian reservation, was in the city today on business.

Mrs. Chas. Ekman left for Verndale this afternoon for a visit with friends and relatives.

The Bachelor Maids will meet tomorrow night at the home of Miss Caroline Morrison at 7 o'clock.

Mrs. J. R. O'Malley, of Aitkin, passed through the city today en route to St. Cloud for a visit with relatives.

Mrs. J. G. Batcheller returned this afternoon from South Dakota, where she has been visiting with relatives.

A marriage license has been granted by clerk of Court Johnston to Mr. John R. Sparks and Miss Rachel Henderson.

Mrs. M. C. Kimberly, who has been in the city visiting with Mrs. Spalding, left this noon on belated No. 6 for her home in St. Paul.

Sam Parker and Joe Weitzel left today for the north where they will enjoy a two weeks hunting trip. They will be joined later by Drs. Batcheller and Mowers.

The Maccabee orchestra will furnish music for the N. P. Library dance to be held on the 20th of this month. They are making a great success with their excellent music.

The Y. P. S. C. E., of the Presbyterian church, will give a "twisted social" at the home of Miss Sadie Smith, 404, 6th street south, Friday evening Nov. 13. Everybody invited.

The young people's society of the Swedish Lutheran church will meet at the home of Mr. and Mrs. O. P. Erickson, corner of Main and Fourth streets, Friday evening, Oct. 6.

Mr. and Mrs. Chas. Swanson are in Minneapolis. It is understood that Mrs. Swanson's health has not been the best, and being examined by a specialist in Minneapolis it was discovered that she is suffering from a tumor.

No. 6, the passenger to St. Paul, did not arrive in the city until late this afternoon and she will run into St. Paul tonight three hours late. The cause of the delay is said to be a small freight wreck in the western part of the state.

Miss Jennette Newell and Miss Georgia Young returned to their homes at Crow Wing this afternoon after a pleasant visit with Miss Elsie Young.

J. C. Small, who was taken sick while at work at the shops a few days ago, is much improved today and it is expected that he will be able to be out gain in a day or so.

Urias Walker, of Pleasantville, Iowa, arrived in the city today and is a guest of his old friend, W. S. Jordan. Mr. Walker will spend some time hunting in the northern woods.

Miss Ruth Tyler, who has been in the hospital for some time where an operation was performed on her for appendicitis, was able to leave for her home today, fully recovered.

Mrs. John Orth left today for Belle Prairie to attend the funeral of her aunt, Mrs. F. X. Goulet, who died at Staples a few days ago. Mrs. Goulet was very well known in this city.

William Ramsdale was in the city yesterday afternoon with a wolf's hide and received \$6.50 from the county as state bounty. This is the second one that Mr. Ramsdale has brought in this fall. This is a case where "keeping the wolf from the door" is a paying proposition.

## Not a Sick Day Since.

"I was taken severely sick with kidney trouble. I tried all sorts of medicines, none of which relieved me. One day I saw an ad. of your Electric Bitters and determined to try. After taking a few doses I felt relieved, and soon thereafter was entirely cured and have not seen a sick day since. Neighbors of mine have been cured of rheumatism, neuralgia, liver and kidney troubles and general debility." This is what B. F. Bass, of Fremont, N. C., writes. Only 50c, at H. P. Dunn & Co. druggists.

## Storms of Old England.

In the year 944 in London alone 1,500 houses were blown down; in October, 1691, a great number of churches and 500 houses were destroyed; in 1235 it thundered for fifteen days consecutively. The dreadful night during which Cromwell's spirit passed has formed a theme for poet and partisan. And the great storm that "o'er pale Britannia passed" in November, 1703, the most terrible in British annals, also has its enduring record in poetry. It did damage in London to the amount of £2,000,000; over 8,000 people were drowned in floods in various parts of the country; twelve men-of-war, with over 1,200 men on board, went down in sight of land; and the Eddystone light-house, along with Winstanley, its inventor, was swept away.

## ESTIMATE OF JAPAN'S ARMY

Russians Write Boys Cavalry is Weak, but Praises the Infantry.

The St. Petersburg correspondent of the London Times syndicate on article by a correspondent of the Novoye Vremya which sums up the Japanese army. It is said that the weakest point in that organization is the cavalry arm, the development of which has been hindered by the lack of horses and the want of suitable places for exercise. The Russian cavalry is seven times more numerous.

The Japanese infantry is most favorably criticised. Its moral qualities are said to be very high, although its physical qualities are on a much lower level. In warm countries, it is declared, the Japanese infantryman has displayed extraordinary powers of endurance, but he would hardly be likely to show them in a cold climate.

The writer concludes his review with the opinion that it is difficult to form an estimate of an army "which has never stood the test of a serious war."

## RETAIL TRADE STIMULATED.

Colder Weather Has a Good Effect Upon General Situation.

New York, Oct. 31.—Bradstreet's weekly review of trade says cooler weather has stimulated retail trade quite generally throughout the country and this is reflected in an improved re-order demand for seasonable goods, especially heavy dry goods, clothing and shoes. The movement of the crops has been freer Northwest, West and South, and interior collections have improved. Eastern jobbers in turn note a more cheerful tone to trade, which has hitherto lagged behind the corresponding season a year ago. Buying is, however, classed as conservative, and smaller lots are taken than formerly.

The labor situation is rather unsettled. Radical leaders are inclined to imperil present advantages in the building trades at some large centers, but germs of better future conditions are found in the utterances of some more conservative leaders, who foresee trouble for the unions if they attempt to precipitate further demands. There is rather a better tone to the lumber market and more steadiness than earlier in the month. The open fall favors active building at many centers and this helps in the absence of the great activity noted at the larger cities a year ago. Other building material is steady for the same reason. The great industries show few changes for the week.

## REPUBLICAN MASS MEETING.

Senator Hoar and Secretary Shaw the Principal Speakers.

Worcester, Mass., Oct. 31.—Republicans held a mass meeting last night in Mechanics Hall, the principal speaker from out of the state being Secretary of the Treasury Leslie M. Shaw, while other speakers included Senator George F. Hoar, who was chairman of the meeting, and Herbert Parker, attorney general of Massachusetts.

Senator Hoar declared that the "Democratic campaign in Massachusetts is not a struggle alone or chiefly for the state government of Massachusetts, but is a struggle for position in the great national battle of 1904." He said the Democratic party had never remedied a grievance, but had created a good many. He also spoke in favor of curbing the trusts.

Secretary Shaw said he had learned to believe in the political campaign, and that politics is not a squabble for office, it is not a strife between parties or between men, but between policies and principles.

Mr. Shaw said that there was great eagerness to wipe out the trusts, in some other state, but when it came home the people of each community wanted the trust in their locality saved.

## A COSTLY VOTER.

New York City to Spend Over \$200 That Joseph Thomas May Vote.

There is one election district in the city of New York which Tammany and fusion are making a hot fight to win, and there is only one voter in the district, says the New York World. To get his vote the city has already spent \$200 and will have to spend nearly \$100 more. It will cost exactly as much to conduct the registration and election for that district as it will in the most populous district.

It is the Nineteenth election district of the Twentieth assembly district. The district lies between Thirty-fifth and Thirty-sixth streets and runs from Second avenue to the East river, a little over a block.

Joseph Thomas is the solitary voter. Last year there were nearly 400 Thomas and his wife live on the third floor of the office portion of the Youngs' lumber yard, which occupies the half block between First avenue and the East river.

For two weeks registration officers went to the registration place in the lumber yard office and sat there solemnly waiting for the voters of the district to come in and register. They knew there was only one in the district, but it required the services of five different inspectors, not to mention the policeman. This cost \$10 a day for rent. The four inspectors got \$7 a day each, or \$28 each for the four days, making \$112. This, with the cost of stationery and \$40 rent ran up a pretty good total. On election day there will be four inspectors at \$14 each, two poll clerks at \$12 each, two ballot clerks at \$8 each, one policeman and watchers for all the tickets in the field.

Last year the registration was 332. Since last year an entire block of sixty houses has been torn down for St. Gabriel's public park, and every one has had to move away except Thomas, who is foreman at the lumber yard. Both the fusion and Tammany men have been working hard to get Thomas, for both sides want the prestige of carrying the district. Thomas has both sides worrying, for he won't promise to vote either way. "I've elected myself captain of this district," said Thomas the other afternoon, "and I intend to see that there's no colonizing or repeating. I won't say how I'll vote, but I'm for clean politics."

## A Woman Coach For a University.

Woman's sports at Northwestern university of Chicago will soon receive an impetus by the acquisition of an athletic coach, says the Indianapolis News. Through the influence of the Woman's Athletic association an appropriation has been secured from the university, and a coach will soon be selected. Basket ball is the favorite sport. The new coach will act as physical director and coach of the basket ball team. The officers of the Woman's Athletic association are as follows: Miss Emily H. Greenman, president; Miss Fannie Campbell, vice president; Miss Emily Harris, secretary; Miss Ella Trelease, treasurer; Miss Olive Silberts, junior member of the board of control, and Dr. O. F. A Quarrel Between Joe Oganosh and Jim Moning Results Fatally for the Former.

Word comes from Aitkin that Joe Oganosh, a Sandy Lake Indian, was shot through the head and killed Tuesday evening by his nephew, Jim Moning, sometimes called "Sandy Jim." The shooting took place at an Indian camp half a mile from Aitkin and was the result of a quarrel between Oganosh and Moning.

Moning was captured by Constable Clark last night and removed to Aitkin. He says he was intoxicated and shot Oganosh in a fit of rage.

Great excitement ensued immediately after the shooting. The town is full of Indians, who are awaiting their pay, including several of the murdered man's relatives and for a time the officers found it necessary to place the prisoner under guard to avoid mob violence.

## The Yeomen Masquerade.

Brainerd Homestead, No. 602, B. A. Y., gave a masquerade dance at Walker's hall last night which was well attended and was an enjoyable affair. Excellent music was furnished by Prof. Graham. The cash prize for cake walking was won by Joe and Barney Cuskey. During the intermission Joe Cuskey gave an exhibition of fancy buck and wing dancing. One of the comical costumes was a wooden-shod farmer wearing a straw hat ornamented with a bunch of real hay.

## Funeral at Belle Prairie.

Quite a large number of old acquaintances paid honor to the memory of Mrs. Goulet by being at the depot today. A good sized party accompanied her remains from Staples to Belle Prairie and were joined here by Mrs. John Orth and Mrs. J. P. Saunders. There were services at the Catholic church in Staples this morning. Her two sons from the east will meet the party at Belle Prairie.

Hundreds of lives saved every year by having Dr. Thomas' Electric Oil in the house just when it is needed. Cures croup, heals burns, cuts, wounds of every sort.

## The Yoemen Masquerade.

Brainerd Homestead, No. 602, B. A. Y., gave a masquerade dance at Walker's hall last night which was well attended and was an enjoyable affair. Excellent music was furnished by Prof. Graham. The cash prize for cake walking was won by Joe and Barney Cuskey. During the intermission Joe Cuskey gave an exhibition of fancy buck and wing dancing. One of the comical costumes was a wooden-shoed farmer wearing a straw hat ornamented with a bunch of real hay.

## Funeral at Belle Prairie.

Quite a large number of old acquaintances paid honor to the memory of Mrs. Goulet by being at the depot today. A good sized party accompanied her remains from Staples to Belle Prairie and were joined here by Mrs. John Orth and Mrs. J. P. Saunders. There were services at the Catholic church in Staples this morning. Her two sons from the east will meet the party at Belle Prairie.

Hundreds of lives saved every year by having Dr. Thomas' Electric Oil in the house just when it is needed. Cures croup, heals burns, cuts, wounds of every sort.

A TRIPLE OF  
DAMAGE SUITS

Brought by Polk & Polk for Three  
Different Employees Against  
the M. & I.

AGGREGATING SUM OF \$25,000

Abraham John, Ole Norgard and  
C. H. Tucker Are Plaintiffs  
Who Ask Damages.

The Minnesota & International rail-  
way company is just at present made  
the object of an unusual attack, no less  
than three employees of the company  
having started suits for personal injur-  
ies received while working on the road  
during the past year.

C. H. Tucker, a fireman, was thrown  
from one of the company's engines near  
Jenkins on August 15, his leg and sev-  
eral ribs were broken, and now he brings  
suit and asks for \$5,000 damages, claim-  
ing that the company was negligent in  
not keeping its track in proper condi-  
tion, the jar of the engine in passing  
over a certain spot throwing him to the  
ground.

Another case is that of Abraham John,  
who while unloading logs at the com-  
pany's landing in this city last August,  
fell and several logs passed over him,  
injuring him to the extent that he believes  
he will never recover. He sues for \$10,-  
000.

There is still another damage suit  
brought by Ole Norgard, who was also  
engaged as a laborer at the landing. He  
sustained injuries while unloading logs  
also and asks for \$10,000 damages. Polk  
& Polk are bringing the suits for the  
plaintiffs in all three suits.

A. V. SNYDER WILL MOVE.

He Has Rented Part of the Store Building  
Occupied by Miss McFadden in  
the Bane Block.

A. V. Snyder, who decided some time  
ago to move from his present location in  
the Gruenhagen building, has had some  
difficulty in finding a suitable location,  
but he found one this morning that he  
thinks will just suit him. Miss McFad-  
den, of the McFadden Millinery Parlors  
has kindly consented to rent him half of  
the store room which she occupies in  
the Bane block, and Mr. Snyder will  
move in about the middle of the month.

This is a large commodious room and  
both departments can be easily manag-  
ed here. Mr. Snyder will carry a full  
line of fancy ladies and gents shoes and  
will occupy the north side of the store  
room, while Miss McFadden will re-  
arrange her stock of millinery and will oc-  
cupy the south side.

In Memoriam.

Whereas, The Great Ruler of the Uni-  
verse has in his infinite wisdom removed  
from our midst our worthy and esteem-  
ed brother, Chauncey P. Wright, and  
Whereas, we are doubly saddened by the  
fact that he passed from this life in a  
distant state, where we could not ad-  
minister the last acts of affection, and  
Whereas, the intimate relation held  
during the period of his membership in  
this lodge, which dates from its institu-  
tion, February 20, 1874, makes it fitting  
that we should record our appreciation  
of him therefore be it

Resolved that the wisdom, ability,  
friendship, love and truth which he  
has exercised in aid of our lodge work by  
council, service and a fraternal spirit,  
will be held in grateful remembrance.  
Resolved, that the removal of such a  
member from our lodge leaves a vacancy  
and shadow that will be deeply realized  
by all members of the lodge and its  
friends and will prove a grievous loss to  
the lodge, the Order and the public.

Resolved, that with deep sympathy  
with the afflicted relatives and friends  
of the deceased, we express an earnest  
hope that even so great a bereavement  
may be overruled for their higher good.  
Resolved, that a copy of these resolu-  
tions be spread on the minutes of this,  
Nelson Lodge, No. 434, I. O. O. F., and  
as a further mark of respect a copy of  
the same be transmitted to the widow  
of the deceased and also that they be  
published in the Wellsboro, Pa., Agitator

ASKS \$525 DAMAGES

James Cullen, Through His Attorneys,  
Polk & Polk, Brings Suit Against City  
to Recover this Amount.

A suit has been instituted by Polk &  
Polk for James Cullen against the city  
of Brainerd, and the plaintiff asks for  
damages to the extent of \$525.

The suit was started as a result of the  
damage done at the plaintiff's pop fac-  
tory and bottling works on Sixth street  
south at the time of the heavy rains and  
high water a year ago last May. In the  
complaint he alleges that the culvert  
placed on Sixth street, not far from his  
bottling works, was insufficient to carry  
the water off, and consequently the city  
was negligent in the matter and the  
plaintiff suffered loss to the extent of  
above amount.

The Cause is a Mystery.

The cause of the explosion at the nor-  
mal school yesterday is an unsolved  
mystery, although the matter was care-  
fully investigated today. Prof. Keppel  
was attempting to make a gas for the  
stereopticon lantern, and was using a  
new generator for the first time. The  
method is somewhat simple and consists  
of a heavy iron retort, about four inches  
in diameter and eighteen inches in  
length, connected with pipes, part of  
which is a rubber hose, connecting with  
a tank reservoir, the pressure being in-  
dicated by a gauge. The chemicals are  
put in the retort and heated to the nec-  
essary temperature by a gas flame. It  
appears that the professor made all  
preparations before calling in the class.  
Up to the time of the explosion the  
gauge did not indicate any pressure  
whatever. The apparatus was taken  
apart today and everything appeared to  
be in good working order, and no mis-  
take had been made by Prof. Keppel in  
making the connections. It is possible  
that there was a stoppage in one of the  
pipes, which held the gas in the retort,  
causing the explosion—although nothing  
of the kind could be found. Had the  
pipe been clear the rubber hose would  
have been blown to pieces long before  
the iron pipe. Four or five of the  
students were standing within two feet  
of the retort when it exploded, and their  
escape from instant death is little short  
of a miracle. Those injured are doing  
as well as could be expected and  
will soon be able to attend school again.

OLD AND NEW WAY.

Hyomei the Latest Scientific Discovery for  
the Cure of Catarrh.

The discovery of Hyomei has wrought  
a wonderful change in the treatment of  
catarrh.

Prior to three years ago the medicines  
ordinarily employed in the cure of this  
disease were nauseating drugs and  
worthless tonics. In some instances  
they benefitted, but the improvement  
was not lasting.

With Hyomei you take into the air  
passages of the throat and head a bal-  
samie air that goes to the minutest cells,  
effectually killing all germs and micro-  
bes of catarrh. It enters the blood  
with the oxygen, killing the germs in the  
blood, and restores health to the whole  
system. Many astonishing testimonials  
have been received from those who have  
been cured by Hyomei.

A complete outfit costs but \$1.00 and  
includes an inhaler, dropper and suffi-  
cient Hyomei for several weeks treat-  
ment.

Perhaps the strongest evidence that  
can be given to doubters, is the fact that  
H. P. Dunn & Co. place so much faith in  
Hyomei that they sell every package  
under a positive guarantee to refund  
the money if it does not cure.

Now is the time to begin the use of  
Hyomei. 8

Doesn't Respect Old Age.

It's shameful when youth fails to  
show proper respect for old age, but just  
the contrary in the case of Dr. King's

no matter how severe and irrespective  
of old age. Dyspepsia, jaundice, fever,  
constipation all yield to this perfect  
pill. 25c. H. P. Dunn & Co's drug

WILL REWARD

John M. Grimes Will Be Recog-  
nized by Northern Pacific  
Officials for Bravery.

PROBABLY WILL BE PROMOTED

His Bravery in Sticking to Wreck-  
ed Engine and Saving Pas-  
sengers Unparalleled

The Northern Pacific will recognize  
with a substantial reward the signal  
bravery of John M. Grimes, the passen-  
ger engineer who Tuesday averted a  
wreck near Carlton and saved the occu-  
pants of a heavy train. No official ac-  
tion has been taken, but headquarters  
officials say that it will follow within a  
few days. It is considered probable  
that Engineer Grimes will get a promo-  
tion.

Mr. Grimes' condition is quite serious  
in some respects. His face and other  
parts of the body are not so bad but it  
is said that his hands are in bad shape.

Mr. Grimes is well known in Brainerd,  
having at one time been a resident  
here.

MRS. WHELOCK'S SCHOOL

Large Number of Brainerd Ladies Taking  
Advantage of the Opportunity to  
Learn New Recipes.

What the ladies of Brainerd don't  
know about cooking this week will not  
be worth mentioning, and if there is  
any one thing that the dear hubby has  
his palate fixed for all he has to do now  
is to give his order, as nearly all the  
good housewives in the city have been  
in attendance at the demonstrations  
and school of instruction being con-  
ducted by Mrs. Wheelock, representing  
Griggs, Cooper & Co., and advertising  
particularly the well known line of  
"Home Brand" goods. Mrs. Wheelock  
is a graduate of the Boston school of  
cooking and has been for five years en-  
gaged in teaching her methods. She is  
sent out by the above wholesale firm  
and makes an annual visit covering a  
distinct territory. Last year she was  
here and so successful was her work  
that she found ready response this time.  
Yesterday for instance there were over  
two hundred ladies present in the hall,  
and when they left each was given a  
souvenir in the shape of a 6 oz. bottle  
of pure maple syrup. This afternoon  
she gave each lady a package of self  
rising buckwheat flour, and it is a cinch  
that some two hundred families will be  
eating buckwheat cakes with maple  
syrup tomorrow morning.

This morning Mrs. Wheelock's time  
was spent with cakes. She made sev-  
eral cakes and her talk was very much  
enjoyed. This afternoon the subject is  
"salads" and there is a very large at-  
tendance.

Mrs. Wheelock is an admirable dem-  
onstrator. She talks rapidly but plain-  
ly as she works, and cheerfully answers  
all questions put to her. During her  
stay in the city she gives eight programs,  
one each morning and afternoon for four  
days. Tomorrow will be her last day in  
Brainerd and there will doubtless be a  
very large attendance.

The Griggs, Cooper & Co. "Home  
Brands" are handled by E. C. Bane in  
this city for Brainerd proper and by J.  
A. Arnold in East Brainerd. Mrs.  
Wheelock has extended an invitation to  
all gentlemen to be present at the dem-  
onstrations but they are evidently afraid  
to come. She stated this morning that  
if they were really afraid of the ladies  
she would provide a separate room for  
them.

L. N. Hatfield is the popular traveling  
representative for the firm of Griggs,  
Cooper & Co. on this territory.

Disastrous Wrecks.

Carelessness is responsible for many a  
railway wreck and the same causes  
are making human wrecks of sufferers  
from throat and lung troubles. But  
since the advent of Dr. King's New Dis-  
covery for consumption, coughs and  
colds, even the worst cases can be cured  
and hopeless resignation is no longer  
necessary. Mrs. Lois Cragg, of Dor-  
chester, Mass., is one of many whose  
life was saved by Dr. King's New Dis-  
covery. This great remedy is guaran-  
teed for all throat and lung diseases by

MUSIC AND DRAMA.

"A FRIEND OF THE FAMILY."

If you want to laugh till your ribs  
rattle and your teeth shake, see "A  
Friend of the family." If you've had a  
fussy old day or a visit from your moth-  
er-in-law, go and enjoy the troubles of  
Geo. Barnum, who plays the role of Bart-  
ley Swift, a married man with a left  
over flirtation from Japan bobbing up  
in the shape of a mother-in-law. If you  
don't laugh until your throat swells and  
your sides ache, there's very little hope  
for you.

The story is one that can not be re-  
peated. I doubt if the man that wrote  
it could repeat it after he got through.  
The tangle is continuous. Its a hilari-  
ous treatment of a novel farcical situa-  
tion. There isn't a moment that drags.  
The fun comes early in the game and  
stays late. Its a whirlwind of hilarity  
and an earthquake of risibility.

George Barnum is one of the funniest  
fellows that ever came to Spokane. But  
he's not alone. Emile Le Croix, whose  
name signifies his nationality, is one of  
the most bubbly Frenchmen I've seen.  
You can't head him off. He's the real  
Yakima pumpkin.

Miss Alice Johnson heads the list of  
fun makers. Beside living up to her  
reputation as an actress, she's a pic-  
ture to behold. It's no wonder she's  
popular. Then the Miles. Vielliers are  
a very cute and catching pair. In fact  
the entire organization is infected with  
laughter producing capacity. Seattle  
Times, Oct. 20, 1903.

You should go to the Brainerd theatre  
Saturday night and see this clever show.  
Seats will go on sale tomorrow at  
Dunn's.

WILLIAM OWEN.

The scenic arrangement of William  
Owen's new romantic play "When Louis  
XI was King," in which he will be seen  
at the Brainerd theatre Monday, Nov.  
9th, is most varied and romantic. The  
15th century style of Flemish, French  
and Burgundian architecture has been  
carefully studied and the general effect  
that has been thus obtained is most  
picturesque. The prologue and last act  
both transpire in the gorgeous audience  
chamber of Charles the Bold of Bur-  
gundy. The first act shows the Fleur  
de lis Inn, a favorite haunt of Louis XI,  
seated in a dense forest near the his-  
toric castle of Plessis, the famous castle  
itself showing in the distance. Act two  
lies in the court yard of the priory of  
St. Dominic, the old priory forming the  
background, surrounded by old crum-  
bling ivy covered walls. The climax of  
the scenic equipment however is reached  
in the third act which is enacted in  
the reception hall of the palace of the  
cardinal, bishop of Liege. It is one of  
the most beautiful and effective scenes  
ever produced, showing the arched and  
domed room with its canopied cardinal's  
throne, its latticed windows, heavy som-  
bre masonry, massive bronze doors and  
rich furniture all illuminated with a  
myriad of candles and blazing flambeau.  
A terrific electrical storm, one of the  
most realistic ever produced, rages  
without during the progress of the act,  
heightening the effect and adding to the  
color and life of the strenuous action.  
The production in its entirety is one  
that any star might well be proud of.

Bemidji, Minn.

Samuel H. Spooner died Monday  
morning at the home of his son, Judge  
Marshall A. Spooner, in Bemidji. He  
was 89 years of age and death was the  
result of exposure that he suffered some  
time ago. He was born in New Bedford,  
Mass., May 4, 1815. His eldest brother  
was Phillip L. Spooner, father of Sen-  
ator Spooner of Wisconsin and his  
younger brother was General Benjamin  
C. Spooner of Indiana. For many years  
he lived at Lawrenceburg, Ind., and was  
appointed a United States marshal by  
President Grant and held the office for  
fourteen years.

## A TRIPLE OF DAMAGE SUITS

Brought by Polk & Polk for Three  
Different Employees Against  
the M. & I.

AGGREGATING SUM OF \$25,000

Abraham John, Ole Norgard and  
C. H. Tucker Are Plaintiffs  
Who Ask Damages.

The Minnesota & International railway company is just at present made the object of an unusual attack, no less than three employees of the company having started suits for personal injuries received while working on the road during the past year.

C. H. Tucker, a fireman, was thrown from one of the company's engines near Jenkins on August 15, his leg and several ribs were broken, and now he brings suit and asks for \$5,000 damages, claiming that the company was negligent in not keeping its track in proper condition, the jar of the engine in passing over a certain spot throwing him to the ground.

Another case is that of Abraham John, who while unloading logs at the company's landing in this city last August, fell and several logs passed over him, injuring him to the extent that he believes he will never recover. He sues for \$10,000.

There is still another damage suit brought by Ole Norgard, who was also engaged as a laborer at the landing. He sustained injuries while unloading logs also and asks for \$10,000 damages. Polk & Polk are bringing the suits for the plaintiffs in all three suits.

### A. V. SNYDER WILL MOVE.

He Has Rented Part of the Store Building  
Occupied by Miss McFadden in  
the Bane Block.

A. V. Snyder, who decided some time ago to move from his present location in the Gruenhagen building, has had some difficulty in finding a suitable location, but he found one this morning that he thinks will just suit him. Miss McFadden, of the McFadden Millinery Parlors has kindly consented to rent him half of the store room which she occupies in the Bane block, and Mr. Snyder will move in about the middle of the month.

This is a large commodious room and both departments can be easily managed here. Mr. Snyder will carry a full line of fancy ladies and gents shoes and will occupy the north side of the store room, while Miss McFadden will rearrange her stock of millinery and will occupy the south side.

### In Memoriam.

Whereas, The Great Ruler of the Universe has in his infinite wisdom removed from our midst our worthy and esteemed brother, Chauncey P. Wright, and

Whereas, we are doubly saddened by the fact that he passed from this life in a distant state, where we could not administer the last acts of affection, and

Whereas, the intimate relation held during the period of his membership in this lodge, which dates from its institution, February 20, 1874, makes it fitting that we should record our appreciation of him therefore be it

Resolved, that the wisdom, ability, Friendship, Love and Truth which he has exercised in aid of our lodge work by council, service and a fraternal spirit, will be held in grateful remembrance.

Resolved, that the removal of such a member from our lodge leaves a vacancy and shadow that will be deeply realized by all members of the lodge and its friends and will prove a grievous loss to the lodge, the Order and the public.

Resolved, that with deep sympathy with the afflicted relatives and friends of the deceased, we express an earnest hope that even so great a bereavement may be overruled for their higher good.

Resolved, that a copy of these resolutions be spread on the minutes of this, Nelson Lodge, No. 434, I. O. O. F., and as a further mark of respect a copy of the same be transmitted to the widow of the deceased and also that they be published in the Wellsboro, Pa. Agitator and the Brainerd, Minn., papers.

## ASKS \$525 DAMAGES

James Cullen, Through His Attorneys,  
Polk & Polk, Brings Suit Against City  
to Recover this Amount.

A suit has been instituted by Polk & Polk for James Cullen against the city of Brainerd, and the plaintiff asks for damages to the extent of \$525.

The suit was started as a result of the damage done at the plaintiff's pop factory and bottling works on Sixth street south at the time of the heavy rains and high water a year ago last May. In the complaint he alleges that the culvert placed on Sixth street, not far from his bottling works, was insufficient to carry the water off, and consequently the city was negligent in the matter and the plaintiff suffered loss to the extent of above amount.

### The Cause is a Mystery.

The cause of the explosion at the normal school yesterday is an unsolved mystery, although the matter was carefully investigated today. Prof. Keppel was attempting to make a gas for the stereopticon lantern, and was using a new generator for the first time. The method is somewhat simple and consists of a heavy iron retort, about four inches in diameter and eighteen inches in length, connected with pipes, part of which is a rubber hose, connecting with a tank reservoir, the pressure being indicated by a gauge. The chemicals are put in the retort and heated to the necessary temperature by a gas flame. It appears that the professor made all preparations before calling in the class. Up to the time of the explosion the gauge did not indicate any pressure whatever. The apparatus was taken apart today and everything appeared to be in good working order, and no mistake had been made by Prof. Keppel in making the connections. It is possible that there was a stoppage in one of the pipes, which held the gas in the retort, causing the explosion—although nothing of the kind could be found. Had the pipe been clear the rubber hose would have been blown to pieces long before the iron pipe. Four or five of the students were standing within two feet of the retort when it exploded, and their escape from instant death is little short of a miracle. Those injured are doing as well as could be expected and will soon be able to attend school again. —St. Cloud Journal-Press.

### Hunter's Hot Springs.

It is not necessary for residents of the northwest to go to the south and east for hot water pleasure and curative baths.

Near Springdale, Mont., on the Northern Pacific, are Hunter's Hot Springs, temperature 148 degrees to 168 degrees Fahr., flowing 2000 gallons per minute, 4000 feet above the sea in the foothills of the Crazy mountains, overlooking the Yellowstone river and valley. Good hotels, cottages, bath houses, swimming pool. Rates \$2.50 per day, \$15.00 per week, including baths.

Baths are good for all rheumatic, skin, liver and kidney and stomach diseases. Appointments comfortable and satisfactory. Railway rates low. The region is a natural sanatorium.

For information write J. E. McCormick, Hunter's Hot Springs, Mont., or Chas. S. Fee, C. P. & T. A. Northern Pacific Ry., St. Paul, Minn.

### OLD AND NEW WAY.

Hyomei the Latest Scientific Discovery for  
the Cure of Catarrh.

The discovery of Hyomei has wrought a wonderful change in the treatment of catarrh.

Prior to three years ago the medicines ordinarily employed in the cure of this disease were nauseating drugs and worthless tonics. In some instances they benefited, but the improvement was not lasting.

With Hyomei you take into the air passages of the throat and head a balsamic air that goes to the minutest cells, effectually killing all germs and microbes of catarrh. It enters the blood with the oxygen, killing the germs in the blood, and restores health to the whole system. Many astonishing testimonials have been received from those who have been cured by Hyomei.

A complete outfit costs but \$1.00 and includes an inhaler, dropper and sufficient Hyomei for several weeks treatment.

Perhaps the strongest evidence that can be given to doubters, is the fact that H. P. Dunn & Co. place so much faith in Hyomei that they sell every package under a positive guarantee to refund the money if it does not cure.

Now is the time to begin the use of Hyomei.

## WILL REWARD HIS BRAVERY.

John M. Grimes Will Be Recognized by Northern Pacific  
Officials for Bravery.

PROBABLY WILL BE PROMOTED

His Bravery in Sticking to Wrecked Engine and Saving Passengers Unparalleled

The Northern Pacific will recognize with a substantial reward the signal bravery of John M. Grimes, the passenger engineer who Tuesday averted a wreck near Carlton and saved the occupants of a heavy train. No official action has been taken, but headquarters officials say that it will follow within a few days. It is considered probable that Engineer Grimes will get a promotion.

Mr. Grimes' condition is quite serious in some respects. His face and other parts of the body are not so bad but it is said that his hands are in bad shape.

Mr. Grimes is well known in Brainerd, having at one time been a resident here.

### MRS. WHELOCK'S SCHOOL

Large Number of Brainerd Ladies Taking  
Advantage of the Opportunity to  
Learn New Recipes.

What the ladies of Brainerd don't know about cooking this week will not be worth mentioning, and if there is any one thing that the dear hubby has his palate fixed for all he has to do now is to give his order, as nearly all the good housewives in the city have been in attendance at the demonstrations and school of instruction being conducted by Mrs. Wheelock, representing Griggs, Cooper & Co., and advertising particularly the well known line of "Home Brand" goods. Mrs. Wheelock is a graduate of the Boston school of cooking and has been for five years engaged in teaching her methods. She is sent out by the above wholesale firm and makes an annual visit covering a distinct territory. Last year she was here and so successful was her work that she found ready response this time. Yesterday for instance there were over two hundred ladies present in the hall, and when they left each was given a souvenir in the shape of a 6 oz. bottle of pure maple syrup. This afternoon she gave each lady a package of self rising buckwheat flour, and it is a cinch that some two hundred families will be eating buckwheat cakes with maple syrup tomorrow morning.

This morning Mrs. Wheelock's time was spent with cakes. She made several cakes and her talk was very much enjoyed. This afternoon the subject is "salads" and there is a very large attendance.

Mrs. Wheelock is an admirable demonstrator. She talks rapidly but plainly as she works, and cheerfully answers all questions put to her. During her stay in the city she gives eight programs, one each morning and afternoon for four days. Tomorrow will be her last day in Brainerd and there will doubtless be a very large attendance.

The Griggs, Cooper & Co. "Home Brands" are handled by E. C. Bane in this city for Brainerd proper and by J. A. Arnold in East Brainerd. Mrs. Wheelock has extended an invitation to all gentlemen to be present at the demonstrations but they are evidently afraid to come. She stated this morning that if they were really afraid of the ladies she would provide a separate room for them.

I. N. Hatfield is the popular traveling representative for the firm of Griggs, Cooper & Co. on this territory.

## MUSIC AND DRAMA.

"A FRIEND OF THE FAMILY."

If you want to laugh till your ribs rattle and your teeth shake, see "A Friend of the family." If you've had a fussy old day or a visit from your mother-in-law, go and enjoy the troubles of Geo. Barnum, who plays the role of Bartley Swift, a married man with a left over flirtation from Japan bobbing up in the shape of a mother-in-law. If you don't laugh until your throat swells and your sides ache, there's very little hope for you.

The story is one that can not be repeated. I doubt if the man that wrote it could repeat it after he got through. The tangle is continuous. Its a hilarious treatment of a novel farcical situation. There isn't a moment that drags. The fun comes early in the game and stays late. Its a whirlwind of hilarity and an earthquake of risibility.

George Barnum is one of the funniest fellows that ever came to Spokane. But he's not alone. Emile Le Croix, whose name signifies his nationality, is one of the most bubblesome Frenchmen I've seen. You can't head him off. He's the real Yakima pumpkin.

Miss Alice Johnson heads the list of fun makers. Beside living up to her reputation as an actress, she's a picture to behold. It's no wonder she's popular. Then the Miles. Vielliers are a very cute and catching pair. In fact the entire organization is infected with laughter producing capacity. Seattle Times, Oct. 29, 1903.

You should go to the Brainerd theatre Saturday night and see this clever show. Seats will go on sale tomorrow at Dunn's.

WILLIAM OWEN.

The scenic arrangement of William Owen's new romantic play "When Louis XI was King," in which he will be seen at the Brainerd theatre Monday, Nov. 9th, is most varied and romantic. The 15th century style of Flemish, French and Burgundian architecture has been carefully studied and the general effect that has been thus obtained is most picturesque. The prologue and last act both transpire in the gorgeous audience chamber of Charles the Bold of Burgundy. The first act shows the Flour de lis Inn, a favorite haunt of Louis XI, seated in a dense forest near the historic castle of Plessis, the famous castle itself showing in the distance. Act two lies in the court yard of the priory of St. Dominic, the old priory forming the background, surrounded by old crumbling ivy covered walls. The climax of the scenic equipment however is reached in the third act which is enacted in the reception hall of the palace of the cardinal, bishop of Liege. It is one of the most beautiful and effective scenes ever produced, showing the arched and domed room with its canopied cardinal's throne, its latticed windows, heavy sombre masonry, massive bronze doors and rich furniture all illuminated with a myriad of candles and blazing flambeau. A terrific electrical storm, one of the most realistic ever produced, rages without during the progress of the act, heightening the effect and adding to the color and life of the strenuous action. The production in its entirety is one that any star might well be proud of.

Bemidji, Minn.

Samuel H. Spooner died Monday morning at the home of his son, Judge Marshall A. Spooner, in Bemidji. He was 89 years of age and death was the result of exposure that he suffered some time ago. He was born in New Bedford, Mass., May 4, 1815. His eldest brother was Phillip L. Spooner, father of Senator Spooner of Wisconsin and his younger brother was General Benjamin C. Spooner of Indiana. For many years he lived at Lawrenceburg, Ind., and was appointed a United States marshal by President Grant and held the office for fourteen years.

JOHNSON BADLY DEFEATED.  
His Total Vote Smallest for Years in  
Ohio.  
Columbus, O., Nov. 5.—The Repub-  
lican plurality in Ohio is about 115,  
000 for governor and the majority in  
the legislature on joint ballot for sena-  
tor is ninety-three.  
Chairman Dick of the Republican  
state committee has secured reports  
from all of the eighty-eight county  
committees and announces that Her-  
rick, Republican, has carried sixty-  
two counties and Johnson, Democrat,  
twenty-six for governor, most of the  
latter by small and the former by  
large pluralities. On a total vote of  
less than 900,000, Herrick's plurality  
in the counties aggregate 135,132, and  
Johnson's 20,476, so that Herrick has  
a net plurality in the state of 114,706  
on estimates that may be increased  
from 1,000 to 2,000 by the offi-  
cial count. The plurality on the rest  
of the Republican state ticket will  
likely be by from 4,000 to 5,000 less  
than that for Herrick. The total vote  
for Johnson was less than that for  
any Democratic candidate for govern-  
or on the legislative ticket the Demo-  
crats carried four less counties than  
for governor.  
The senate stands 29 Republicans  
and 4 Democrats. The house stands  
89 Republicans and 21 Democrats. The  
majority on joint ballot for the re-  
election of Senator Hanna will be 93.  
Mayor Johnson has issued a state-  
ment in which he attributed the re-  
sult in Ohio to the contention of Sena-  
tor Hanna that Johnson's election  
would unsettle business conditions,  
and the large fund used by Republi-  
cans.

GOVERNOR OF MARYLAND.  
Democratic Candidate Elected by Eight  
Thousand Plurality.  
Baltimore, Md., Nov. 5.—At midnight  
the returns of the election from Balti-  
more and the state of Maryland had  
not been received. Two missing pre-  
dicts in the city had been counted by  
the election judges, but owing to the  
long vigil of the clerical force in the  
office of the supervisors of election it  
was decided to close the office. The  
figures of the missing precincts are  
promised today. They will not mate-  
rially change the result. In Baltimore  
the entire Democratic state ticket,  
comprising Edwin Warfield of How-  
ard county, governor; Gordon T. At-  
kinson of Somerset county, comptrol-  
ler, and William Shephard Bryan, Jr.,  
of Baltimore, attorney general, was  
elected by about 5,000 plurality. Will-  
iam H. Greene, Republican, is ap-  
parently elected sheriff of the city by  
a plurality of between 100 and 200.  
The returns from all of the counties  
of the state have not been received,  
but enough reports are in hand to as-  
sure an overwhelming Democratic ma-  
jority on joint ballot in the general as-  
sembly, which will elect a successor  
to United States Senator Louis E.  
McComas.  
From returns received at this city  
it is concluded that the Democrats will  
have on joint ballot 82 votes in gen-  
eral assembly to 41 Republicans. Gen-  
eral Warfield's plurality in the state  
will probably reach 8,000.

CUMMINS' LARGE PLURALITY.  
Iowa Governor Carries the State by  
Eighty Thousand.  
Des Moines, Ia., Nov. 5.—Complete  
returns from every county in Iowa re-  
ceived by the Register and Leader,  
show Governor Cummins' plurality  
over J. B. Sullivan, Democratic candi-  
date for governor, to be \$0,802. The  
size of the plurality was a surprise in  
all quarters. Governor Cummins had  
confidently predicted a plurality of  
60,000 or more, but at 59,000 he  
claimed at any time, while at Demo-  
cratic headquarters not more than  
20,000 was conceded. In a large mea-  
sure the result is considered a personal  
victory for Governor Cummins.  
Governor Cummins ran somewhat  
ahead of the remainder of the Republi-  
can state ticket. The Democrats  
will have twenty-three of the 100 mem-  
bers of the next house, a gain of six,  
and eight of the fifty members of the  
senate, a loss of two.

BECKHAM'S LARGE MAJORITY.  
Democratic Governor Carries Ken-  
tucky by Twenty-five Thousand.  
Louisville, Ky., Nov. 5.—Returns  
which are complete save for a few  
scattered precincts in remote parts  
of the state give Governor Beckham,  
Democrat, for governor a majority of  
30,408 over Morris B. Belknap, his Re-  
publican opponent. The missing pre-  
dicts are in both Republican and  
Democratic strongholds, yet the asser-  
tion seems warranted that the gov-  
ernor's final and official majority will  
be not less than 25,000. This is the  
largest majority given a Democratic  
gubernatorial candidate in fifteen  
years.  
The Republicans are preparing  
charges of fraud alleged to have been  
perpetrated in Louisville, which they  
will probably present to the grand  
jury in a few days.

IMMENSE PLURALITY FOR REPUBLICAN.  
Philadelphia, Nov. 5.—Complete re-  
turns from all but eleven counties of  
the state indicate a plurality for  
William L. Mathews, Republican candi-  
date for state treasurer, approximat-  
ing 265,000.  
Returns Coming in Slowly.  
Jackson, Miss., Nov. 5.—The vote  
cast in the state election will not ex-  
ceed 30,000. The returns are coming in  
slowly. The contest for supreme  
court clerk will be thrown into the  
house.

NORTHERN SECURITIES CASE.  
Attorneys for Minnesota Want Hear-  
ing Advanced.  
Washington, Nov. 5.—The attorneys  
for the state of Minnesota Wednesday  
filed a brief in the supreme court in  
support of the motion to advance the  
case of the state against the North-  
ern Securities company. They say  
they want the Minnesota case and the  
federal case argued about the same  
time, and contend that the notice of  
an intention to move to dismiss the  
case is not sufficient to defeat the motion  
to advance.

MURDERS ARMENIANS  
GEORGIE YANNIE ASSASSINATES  
TWO MEN AND THEN TAKES  
HIS OWN LIFE.  
MAY HAVE KILLED SAGOUNI  
LONDON POLICE FEAR A CONTIN-  
UATION OF THE MURDER-  
OUS VENDETTA.  
London, Nov. 5.—The dramatic  
murder of Sagouni, president  
of the Armenian Revolutionary So-  
ciety in London, on Oct. 26, was fol-  
lowed Wednesday afternoon by the  
assassination of two more delegates  
to the Armenian convention here. The  
suicide of the assassin, though he has  
not yet been identified, gives good  
reason to believe that he also was the  
slayer of Sagouni.  
The murders were carried out in  
the most daring manner, more so than  
was the assassination of Sagouni.  
They took place in the early after-  
noon, close to the Armenian head-  
quarters at Peckham Rye. The two  
victims were shot down from behind  
at close range. The murderer fired  
twice at a third member of the group,  
but missed him, and then attempted to  
flee. Seeing that his escape was cut  
off, he drew another revolver and shot  
himself with his left hand. It is con-  
sidered a significant fact that the as-  
sassin of Sagouni was also left-hand-  
ed.  
The names of the murdered Arme-  
nians are Agram Grigorian and Sig-  
ram Szmician, and their companion  
who escaped is Rouben Ghabrian.  
It is believed that the identity of  
the assassin may remain unsolved un-  
less he has been previously in the  
hands of the police, when the scars  
on his face may render identification  
easy.  
A member of the Armenian Revolu-  
tionary committee said: "The murder-  
er is undoubtedly an Armenian,  
but he is not one of our people. He  
looks like a man from the interior  
districts."  
Costume of a Curious Mixture.  
The costume of the assassin was of  
a curious mixture. A new light over-  
coat and a black derby hat gave him  
a respectable exterior, but his  
serge suit was ragged and his shoes  
were much worn. His shirt was new  
and white, while his underclothes were  
shabby, and of fine quality. In his pocket  
he carried a cloth cap, apparently that  
said to have been bought by the slayer  
of Sagouni on the night of the latter's  
assassination. It was much too  
large and its size had been reduced  
by several rough stitches. It is evi-  
dent that the plan of the assassin in  
making his escape had been to dis-  
card his overcoat and the derby hat  
and to wear the cap which would have  
given him the appearance of a street  
loafer, but his escape being cut off,  
he determined to commit suicide rather  
than to submit to capture.  
This series of crimes in a hitherto  
quiet suburb has brought terror to the  
Armenians, who fear to leave their  
headquarters except under police pro-  
tection. The police, while believing  
that the murderer of Sagouni and the  
assassin of the Armenians Wednesday  
are identical, fearing a continuation  
of the murderous vendetta, point to  
the ease with which the assassin es-  
caped them after the killing of Sagouni.  
It indicates, they say, that the  
murderer was harbored and given an-  
other set of clothing by accomplices.  
The police are utterly at sea re-  
garding the case, and do not know  
where to begin to unravel the mys-  
tery.  
It is said a letter found on the Ar-  
menian murderer's body identifies him  
under the name of Georgie Yannie.

PROSPECT OF A CLASH.  
Wyoming Authorities and Indian Agent  
at Variance.  
Cheyenne, Wyo., Nov. 5.—There is a  
prospect of a clash between the  
Wyoming authorities and the govern-  
ment over the Indian troubles. The  
Indian agent wishes Governor Chat-  
terton to order the release of nine  
buckles held at Edgemont, S. D. Gov-  
ernor Chatterton last night received  
the following telegram from Agent  
Brennan at Edgemont, S. D.:  
"From best information I can get  
the killing of seven Indians in Con-  
verse county on last Saturday was to-  
tally unjustifiable. Indians were trav-  
eling on the road with their families  
in wagons when fired into by sheriff  
and posse. Ten Indians and their  
families under arrest here and held  
by order of sheriff of Converse coun-  
ty. To avoid any further trouble would  
recommend you order their release  
and allow them to return to agency.  
I will be responsible for them and  
after an investigation if any of them  
are wanted will turn them over to  
proper authorities. They were arrest-  
ed in Dakota by one of your sheriffs."  
In answer Governor Chatterton  
wired Agent Brennan insisting upon  
the Indians returning to Wyoming and  
stating that his information as to the  
killing differed from that of Agent  
Brennan.

COLORADO BANK CLOSED.  
Shrinkage of Deposits Results From  
Miners' Strike.  
Colorado Bank, Nov. 5.—A  
special to the Gazette from Victor  
states that the First National Bank of  
Victor has closed its doors by order  
of Bank Examiner Lazear. Shrink-  
age of deposits as a result of the long  
continued miners' strike is given as  
the reason for suspending business.  
President F. M. Woods states that all  
depositors will be paid in full.  
Pueblo, Colo., Nov. 5.—The Pueblo  
Title and Trust company of this city,  
the principal stockholder in which is  
the Woods Investment company, has  
announced a voluntary assignment for  
the protection of its depositors.  
Public School Statistics.  
Washington, Nov. 5.—The report of  
the commissioner of education for the  
past fiscal year places the total num-  
ber of pupils enrolled in the common  
schools during the year at 15,925,887,  
or 20 per cent of the entire population.  
The average daily attendance for  
1902 was 10,999,273, being 69 per cent  
of the total number enrolled.  
Bank President Took the Funds.  
Oklahoma City, Okla., Nov. 5.—Upon  
opening the safe of the Bank of Chick-  
asaw Nation at Tishomingo, which  
closed its doors last week, Receiver  
Foster found but \$50, which was in  
silver. It is alleged that the presi-  
dent, Kirby Putidom, who disappeared  
at the time of the failure, took the  
funds with him.  
TELEGRAPHIC BRIEVITIES.  
About 150 houses were destroyed by  
fire at Jeremie, Hayti, Monday.  
Official returns give George B. Mc-  
Clellan for mayor of Greater New  
York a plurality of 63,617.  
The London Daily Mail's Tien Tsin  
correspondent cables that 10,000 Rus-  
sian troops have occupied Mukden.  
Employees of the Chicago City Rail-  
way company will vote on the ques-  
tion of a strike Thursday and Friday.  
The British embassy at Washington  
will probably attempt to effect the  
extradition of James Lynch, the Irish  
fugitive.  
Stephen D. Winner, said to have  
been the oldest locomotive engineer  
in active service in the United States,  
is dead at Newark, N. J., aged eighty-  
one years.  
Colorado returns show that the plu-  
rality for Campbell, Republican, over  
Wilson, Democrat, for justice of the  
supreme court will not be far from  
7,000.  
Returns received Wednesday evening  
show that Barnes, Republican, for su-  
preme judge, will have a majority of  
at least 8,000 over Judge Sullivan,  
Fusionist, in Nebraska.

ON HIS WEDDING DAY.  
Pennsylvania Newspaper Man Blows  
Out His Brains.  
Philadelphia, Nov. 5.—"Tell Lillie  
she will find my dead body in the bath  
room and notify Worthington that he  
need not send the cab, as there will be  
no wedding tonight."  
Having written the above on a  
piece of paper and placed it under the  
front door of his newly furnished  
house, William Warren, aged forty-  
five, a newspaper man of Chester,  
went to the bath room and blew out  
his brains with a revolver. Warren  
was to have been married to Miss  
Lillian Robertson, of this city, last  
night.  
A sealed note addressed to Miss  
Robertson was found on Warren's  
body but the coroner will not make  
public its contents. The reason for  
Warren's taking his life is said to have  
been his knowledge. He is said to have  
a wife in England, which country he  
left seventeen years ago. After his  
arrival in Chester he married a young  
woman who died about three years ago.

OWNERSHIP UNSETTLED.  
Strip of Territory in Alaska Left in  
Uncertainty.  
Washington, Nov. 5.—The surpris-  
ing fact developed Wednesday that  
the ownership of a strip of territory  
140 miles in length was left unsettled  
by the deliberations of the Alaskan  
boundary tribunal in London.  
The territory in doubt lies between  
Kate's Needle and Devil's Paw and  
the distance is 340 miles. Devil's  
Paw is a mountain peak seventy-five  
miles southeast of Skagway, and  
Kate's Needle is a peak 140 miles  
south of Devil's Paw.  
The region left in uncertainty is not  
valuable so far as known now. It is  
covered with ice and snow all the  
year. This material part of the line  
was not determined because the provi-  
sional survey chart of 1893 provided  
no data, this part of the work having  
been botched—probably with intent—  
by the Canadian members of the joint  
survey party. The matter cannot be  
settled without a new treaty with  
Great Britain negotiated for this spe-  
cial purpose and providing for the  
appointment of another commission.

TO NEW SIGNAL TOWER.  
Uncle Sam to Have a Big Observa-  
tory on States Island.  
United States coast survey offi-  
cials have begun the erection of a  
tower on Todd hill, about 400 yards  
from the residence of David J. Tysen,  
the highest point on States Island, says  
the New York World. The tower will  
be seventy-five feet in height and will  
be capable of signaling with the gov-  
ernment building in Manhattan. The  
ground has been cleared for the founda-  
tion.  
The value of this particular spot as  
a lookout or signal station was known  
to the Aquehonga as well as other  
tribes of Indians prior to the advent  
of civilization in the new world. Within  
the memory of very old citizens of  
States Island there stood a giant oak  
tree near the spot now being prepared  
for the tower which the Indians used  
to signal with friends and, according  
to the custom of the aborigines, ascend  
to the highest possible point to petition  
the sun god to receive the spirit of a  
faithful departed warrior.

SCOTTIE'S APPEAL FOR GIRLS.

tie's. Many unmarried men in that  
driving city are yearning for wives, and  
an appeal for girls has been sent to the  
mayor of Troy, N. Y., where the feminine  
population is greatly in excess of the  
men.]  
Give us girls! A town like this de-  
mands  
Sweet girls, fair girls—we wish to claim  
their hands  
Girls who will darn our socks and cook  
our meals  
Girls who will stroke our brows when  
we are ill  
Girls who will listen to our fond appeals  
When, urged by love, we look for girls  
To fill  
The empty places at our firesides  
Oh, send us girls, if possible, good look-  
ing  
If not, send any kind, to be our brides.  
To sew our buttons on and do our cook-  
ing.

### JOHNSON BADLY DEFEATED.

His Total Vote Smallest for Years in Ohio.

Columbus, O., Nov. 5.—The Republican plurality in Ohio is about 115,000 for governor and the majority in the legislature on joint ballot for senator is ninety-three.

Chairman Dick of the Republican state committee has secured reports from all of the eighty-eight county committees and announces that Herrick, Republican, has carried sixty-two counties and Johnson, Democrat, twenty-six for governor, most of the latter by small and the former by large pluralities. On a total vote of less than 900,000, Herrick's plurality in the counties aggregate 135,132, and Johnson's 20,476, so that Herrick has a net plurality in the state of 114,706 on estimates that may be increased from 1,000 to 2,000 by the official count. The plurality on the rest of the Republican state ticket will likely be by from 4,000 to 5,000 less than that for Herrick. The total vote for Johnson was less than that for any Democratic candidate for governor for years.

On the legislative ticket the Democrats carried four less counties than for governor.

The senate stands 29 Republicans and 4 Democrats. The house stands 89 Republicans and 21 Democrats. The majority on joint ballot for the re-election of Senator Hanna will be 93. Mayor Johnson has issued a statement in which he attributed the result in Ohio to the contention of Senator Hanna that Johnson's election would unsettle business conditions, and the large fund used by Republicans.

### GOVERNOR OF MARYLAND.

Democratic Candidate Elected by Eight Thousand Plurality.

Baltimore, Md., Nov. 5.—At midnight the returns of the election from Baltimore and the state of Maryland had not been received. Two missing precincts in the city had been counted by the election judges, but owing to the long vigil of the clerical force in the office of the supervisors of election it was decided to close the office. The figures of the missing precincts are promised today. They will not materially change the result. In Baltimore the entire Democratic state ticket, comprising Edwin Warfield of Howard county, governor; Gordon T. Atkinson of Somerset county, comptroller; and William Shephard Bryan, Jr., of Baltimore, attorney general, was elected by about 5,000 plurality. WILLIAM H. GREENE, Republican, is apparently elected sheriff of the city by a plurality of between 100 and 200.

The returns from all of the counties of the state have not been received, but enough reports are in hand to assure an overwhelming Democratic majority on joint ballot in the general assembly, which will elect a successor to United States Senator Louis E. McComas.

From returns received at this city it is concluded that the Democrats will have on joint ballot 82 votes in general assembly to 41 Republicans. General Warfield's plurality in the state will probably reach 8,000.

### CUMMINS' LARGE PLURALITY.

Iowa Governor Carries the State by Eighty Thousand.

Des Moines, Ia., Nov. 5.—Complete returns from every county in Iowa received by the Register and Leader, show Governor Cummins' plurality over J. B. Sullivan, Democratic candidate for governor, to be \$0,802. The size of the plurality was a surprise in all quarters. Governor Cummins had confidently predicted a plurality of 60,000 or more, but at Republican headquarters no more than 50,000 was claimed at any time, while at Democratic headquarters not more than 20,000 was conceded. In a large measure the result is considered a personal victory for Governor Cummins.

Governor Cummins ran somewhat ahead of the remainder of the Republican state ticket. The Democrats will have twenty-three of the 100 members of the next house, a gain of six, and eight of the fifty members of the senate, a loss of two.

### BECKHAM'S LARGE MAJORITY.

Democratic Governor Carries Kentucky by Twenty-five Thousand.

Louisville, Ky., Nov. 5.—Returns which are complete save for a few scattered precincts in remote parts of the state give Governor Beckham, Democrat, for governor a majority of 20,408 over Morris B. Belknap, his Republican opponent. The missing precincts are in both Republican and Democratic strongholds, yet the assertion seems warranted that the governor's final and official majority will be not less than 25,000. This is the largest majority given a Democratic gubernatorial candidate in fifteen years.

The Republicans are preparing charges of fraud alleged to have been perpetrated in Louisville, which they will probably present to the grand jury in a few days.

### Immense Plurality for Republican.

Philadelphia, Nov. 5.—Complete returns from all but eleven counties of the state indicate a plurality for William L. Mathews, Republican candidate for state treasurer, approximating 265,000.

### Returns Coming in Slowly.

Jackson, Miss., Nov. 5.—The vote cast in the state election will not exceed 30,000. The returns are coming in slowly. The contest for supreme court clerk will be thrown into the house.

### NORTHERN SECURITIES CASE.

Attorneys for Minnesota Want Hearing Advanced.

Washington, Nov. 5.—The attorneys for the state of Minnesota Wednesday filed a brief in the supreme court in support of the motion to advance the case of the state against the Northern Securities company. They say they want the Minnesota case and the federal case argued about the same time, and contend that the notice of an intention on the part of the defendants to move to dismiss the case is not sufficient to defeat the motion to advance.

## MURDERS ARMENIANS

GEORGIE YANNIE ASSASSINATES TWO MEN AND THEN TAKES HIS OWN LIFE.

### MAY HAVE KILLED SAGOUNI

LONDON POLICE FEAR A CONTINUATION OF THE MURDEROUS VENDETTA.

London, Nov. 5.—The dramatic murder of Sagouni, president of the Armenian Revolutionary Society in London, on Oct. 25, was followed Wednesday afternoon by the assassination of two more delegates to the Armenian convention here. The suicide of the assassin, though he has not yet been identified, gives good reason to believe that he also was the slayer of Sagouni.

The murders were carried out in the most daring manner, more so than was the assassination of Sagouni. They took place in the early afternoon, close to the Armenian headquarters at Peckham Rye. The two victims were shot down from behind at close range. The murderer fired twice at a third member of the group, but missed him, and then attempted to flee. Seeing that his escape was cut off, he drew another revolver and shot himself with his left hand. It is considered a significant fact that the assassin of Sagouni was also left-handed.

The names of the murdered Armenians are Agram Grigorian and Sigrum Szmician, and their companion who escaped is Rouben Ghabrielian. It is believed that the identity of the assassin may remain unsolved unless he has been previously in the hands of the police, when the scars on his face may render identification easy.

A member of the Armenian Revolutionary committee said: "The murderer is undoubtedly an Armenian, but he is not one of our people. He looks like a man from the interior districts."

### Costume of a Curious Mixture.

The costume of the assassin was of a curious mixture. A new light overcoat and a new black derby hat gave him a respectable exterior, but his serge suit was ragged and his shoes were much worn. His shirt was shabby, while his underclothes were new and of fine quality. In his pocket he carried a cloth cap, apparently that said to have been bought by the slayer of Sagouni on the night of the latter's assassination. It was much too large and its size had been reduced by several rough stitches. It is evident that the plan of the assassin in making his escape had been to discard his overcoat and the derby hat and to wear the cap which would have given him the appearance of a street loafer, but his escape being cut off, he determined to commit suicide rather than to submit to capture.

This series of crimes in a hitherto quiet suburb has brought terror to the Armenians, who fear to leave their headquarters except under police protection. The police, while believing that the murderer of Sagouni and the assassin of the Armenians Wednesday are identical, fearing a continuation of the murderous vendetta, point to the ease with which the assassin escaped them after the killing of Sagouni. It indicates, they say, that the murderer was harbored and given another set of clothing by accomplices.

The police are utterly at sea regarding the case, and do not know where to begin to unravel the mystery. It is said a letter found on the Armenian murderer's body identifies him under the name of Georgie Yannie.

### THE PRESIDENT'S MESSAGE.

Will Be Brief and Deal Only With Cuban Reciprocity.

Washington, Nov. 5.—President Roosevelt's message to the extra session of congress will not be transmitted to that body until Tuesday, the second day of the session. The message is a brief one, containing about 1,000 words, and deals exclusively with the necessity of Cuban reciprocity. The first day of the extra session will be devoted to the organization of the two houses.

### FATAL KENTUCKY FIGHT.

Jacob Spencer Shoots Curtis Gross and Is Killed by Latter's Son.

Jackson, Ky., Nov. 5.—Two men are dead as the result of a fight on Middlefork, six miles west of Jackson. Jacob Spencer killed Curtis Gross out of his house and shot him dead without a word. Samuel Gross, the eighteen-year-old son of Curtis Gross, sprang out and stabbed Spencer to death, the knife puncturing his heart. There was a grudge between the men.

### TRAIN DITCHED BY A COW.

One Trainman Killed and Another Injured.

Davenport, Ia., Nov. 5.—Chicago, Rock Island and Pacific freight accommodation No. 321 was ditched two miles east of Dixon, Ia. The train ran into a cow on the track and the engine and seven cars rolled down a fifteen-foot embankment. Brakeman Sywillie of Cedar Rapids was killed and Engineer Byers' leg was broken.

### DATE SET FOR HEARING.

Case Against Boston and Montana Company to Be Tried Nov. 21.

Helena, Mont., Nov. 5.—Late in the afternoon the supreme court granted the motion of Attorney A. E. Levens to advance the case of John MacGinnis against the Boston and Montana company on the docket and the hearing was set for Nov. 21.

### PROSPECT OF A CLASH.

Wyoming Authorities and Indian Agent at Variance.

Cheyenne, Wyo., Nov. 5.—There is a prospect of a clash between the Wyoming authorities and the government over the Indian troubles. The Indian agent wishes Governor Chatterton to order the release of nine bucks held at Edgemont, S. D. Governor Chatterton last night received the following telegram from Agent Brennan at Edgemont, S. D.: "From best information I can get the killing of seven Indians in Converse county on last Saturday was totally unjustifiable. Indians were traveling on the road with their families in wagons when fired into by sheriff and posse. Ten Indians and their families under arrest here and held by order of sheriff of Converse county. To avoid any further trouble would recommend you order their release and allow them to return to agency. I will be responsible for them and after an investigation if any of them are wanted will turn them over to proper authorities. They were arrested in Dakota by one of your sheriffs."

In answer Governor Chatterton wired Agent Brennan insisting upon the Indians returning to Wyoming and stating that his information as to the killing differed from that of Agent Brennan.

### COLORADO BANK CLOSED.

Shrinkage of Deposits Results From Miners' Strike.

Colorado Springs, Colo., Nov. 5.—A special to the Gazette from Victor states that the First National Bank of Victor has closed its doors by order of Bank Examiner Lazear. Shrinkage of deposits as a result of the long continued miners' strike is given as the reason for suspending business. President F. M. Woods states that all depositors will be paid in full.

### Pueblo, Colo., Nov. 5.—The Pueblo Title and Trust company of this city, the principal stockholder in which is the Woods Investment company, has announced a voluntary assignment for the protection of its depositors.

Public School Statistics.  
Washington, Nov. 5.—The report of the commissioner of education for the past fiscal year places the total number of pupils enrolled in the common schools during the year at 15,925,887, or 20 per cent of the entire population. The average daily attendance for 1902 was 10,939,273, being 69 per cent of the total number enrolled.

### Bank President Took the Funds.

Oklahoma City, Okla., Nov. 5.—Upon opening the safe of the Bank of Chickasaw Nation at Tishomingo, which closed its doors last week, Receiver Foster found but \$50, which was in silver. It is alleged that the president, Kirby Putidom, who disappeared at the time of the failure, took the funds with him.

### TELEGRAPHIC BRIEVITIES.

About 150 houses were destroyed by fire at Jeremie, Hayti, Monday.

Official returns give George B. McClellan for mayor of Greater New York a plurality of 63,617.

The London Daily Mail's Tsin correspondent cables that 10,000 Russian troops have occupied Mukden.

Employees of the Chicago City Railway company will vote on the question of a strike Thursday and Friday.

The British embassy at Washington will probably attempt to effect the extradition of James Lynch, the Irish fugitive.

Stephen D. Winner, said to have been the oldest locomotive engineer in active service in the United States, is dead at Newark, N. J., aged eighty-one years.

Colorado retrns show that the plurality for Campbell, Republican, over Wilson, Democrat, for justice of the supreme court will not be far from 7,000.

Returns received Wednesday evening show that Barnes, Republican, for supreme judge, will have a majority of at least 8,000 over Judge Sullivan, Fusionist, in Nebraska.

### ON HIS WEDDING DAY.

Pennsylvania Newspaper Man Blows Out His Brains.

Philadelphia, Nov. 5.—"Tell Lillie she will find my dead body in the bath room and notify Worthington that he need not send the cab, as there will be no wedding tonight."

Having written the above on a piece of paper and placed it under the front door of his newly furnished house, William Warren, aged forty-five, a newspaper man of Chester, went to the bath room and blew out his brains with a revolver. Warren was to have been married to Miss Lillian Robertson, of this city, last night.

A sealed note addressed to Miss Robertson was found on Warren's body but the coroner will not make public its contents. The reason for Warren's taking his life is not definitely known. He is said to have a wife in England, which country he left seventeen years ago. After his arrival in Chester he married a young woman who died about three years ago.

### OWNERSHIP UNSETTLED.

Strip of Territory in Alaska Left in Uncertainty.

Washington, Nov. 5.—The surprising fact developed Wednesday that the ownership of a strip of territory 140 miles in length was left unsettled by the deliberations of the Alaskan boundary tribunal in London.

The territory in doubt lies between Kate's Needle and Devil's Paw and the distance is 340 miles. Devil's Paw is a mountain peak seventy-five miles southeast of Skagway, and Kate's Needle is a peak 140 miles south of Devil's Paw.

The region left in uncertainty is not valuable so far as known now. It is covered with ice and snow all the year. This material part of the line was not determined because the provincial survey chart of 1893 provided no data, this part of the work having been botched—probably with intent—by the Canadian members of the joint survey party. The matter cannot be settled without a new treaty with Great Britain negotiated for this special purpose and providing for the appointment of another commission.

### NEW SIGNAL TOWER.

Uncle Sam to Have a Big Observatory on Staten Island.

The United States coast survey officials have begun the erection of a tower on Todt hill, about 400 yards from the residence of David J. Tyson, the highest point on Staten Island, says the New York World. The tower will be seventy-five feet in height and will be capable of signaling with the government building in Manhattan. The ground has been cleared for the foundation.

The value of this particular spot as a lookout or signal station was known to the Aquehonga as well as other tribes of Indians prior to the advent of civilization in the new world. Within the memory of very old citizens of Staten Island there stood a giant oak tree near the spot now being prepared for the tower which the Indians used to signal with friends and, according to the custom of the aborigines, ascend to the highest possible point to petition the sun god to receive the spirit of a faithful departed warrior.

### Seattle's Appeal For Girls.

[There is a shortage of women at Seattle, Wash. Many unmarried men in that thriving city are yearning for wives, and an appeal for girls has been sent to the mayor of Troy, N. Y., where the feminine population is greatly in excess of the men.]

Oh, give us girls! A town like this demands sweet girls, fair girls—we wish to claim their hands. Girls who will darn our socks and cook our meals. Girls who will stroke our brows when we are ill. Girls who will listen to our fond appeals. When, urged by love, we look for girls to fill the empty places at our firesides.

Oh, send us girls, if possible, good looking. If not, send any kind, to be our brides. To sew our buttons on and do our cooking.
